Príncipe  
May 4.

Dear Dr Gorn

We were very glad to receive your telegram in reply to my letter. We came out on the 'Portugal' arriving April 23.

We are being most kindly entertained by Mr Carneiro; and have everything we could possibly desire. Everyone has received us most kindly, and has given us every assistance. All we need now is a fine day for the eclipse.

This is a beautiful island, and besides making good progress with our work we are thoroughly enjoying our experiences.

With many thanks for your assistance and with kind regards,

Yours sincerely

A. Eddington
